A CORRECTION

Master Sam Burford was quite upset by reading the Star's account of the pet show of Saturday, when it said his pony, "Trixy," only received second prize. He wants it distinctly understood that "Trixy" took first prize and has the card to show for it. Sam wouldn't care, only he knows that "Trixy" will feel humiliated until the correction is made, and we do it with great cheerfulness, remarking that when the Star representative went to the judges for the official list they had none and said the prizes as awarded were fastened to the prize winners, so we had to get the list by word of mouth. Sam's pony now flaunts the blue ribbon whip, and shakes her shaggy mane with disdain at the "curry comb" prize pony.

EDITORS, ATTENTION

Slaves of the quill and the paste pot, enter into our sanctum and hear the unfolding of a wondrous tale.

At the great Florida State Fair, to be held in Tampa November 15 to 30, there's going to be a Press Day—and it's going to be a hummer.

The date hasn't been announced yet, but rest easy, for we'll put you next for one reason, "if for no other—there's going to be something doing" in the eating line, and for once in our lives a "square meal" will be placed in reach of all, with a few liquid inspirants of ancient vintage on the side.

If charitable neighbors should send in anything eatable beforehand, don't touch it. Save your digestive organs for the evening of Press Day, after which we will all die happy in the realization of having our hunger and thirst appeased once in life.

From present prospects we may have to sit at the festal board with an ornery horde of Florida legislators, but a man must forget his lofty seat on the tripod when the satisfaction of his stomach is at stake, especially when satisfaction comes at such rare intervals.

If your neighbor at the banquet happens to be a "legislatur man" with a desire to make speeches and devour food at the same time, just forget it and confine yourself to the menu from blue points to creme de menthe.

And, say, there may be some "tall doings" on the Range.

But this is on the dead Q. T. If anything like this gets out, Madame might tie you to the bedstead and keep you at home.

Owing to lack of space, we must close, but we want to put you next to the fact that you mustn't miss it.

Mum's the word.

Also and likewise.

GET BUSY!—Tampa Tribune.

It's doughnuts to doughnuts that Wallace Stovall and the rest of the Tampa press gang are getting busy, and if the press gang and Faber showers of Florida are not present at this feast to tank up on the best that the Tampa Bay affords, and turn down their glasses to illustrate their abstemious habits, it won't be the fault of Editor Wallace Stovall of the Tampa Tribune.

Editor Harris is wrestling with the pangs of the dengue and has the sympathy of a large majority of the people of this community who have been on the fire line of the dengue battle.

Mr. J. F. Henkel, a representative of the National Lead Company of New York, was in town yesterday, and paid the Star a visit. He is not only a pleasant gentleman, but is well posted in his business. He gave the Star some valuable information in regard to melting and caring for linotype metal.

Mr. W. A. Sparkman, a former citizen and merchant of Oxford, but now in the grocery business at Lakeland, was in town Monday. He says he is greatly pleased with his new home.

Mr. S. A. Rawls and Dr. S. H. Blitch returned from Dunnellon today. They attended the division of convicts yesterday afternoon. Twelve or sixteen of the convicts were brought up to Ocala with them.

Dr. Stallberg, who arrived Saturday from Philadelphia, went to Gainesville today to pass a medical examination far a certificate to practice medicine in Florida. He expects to practice in Ocala.

Among the distinguished attorneys in Ocala yesterday were ex-Governor C. B. Aycock and W. C. Monroe of Greensboro, N. C., who appeared before Judge W. S. Bullock in chambers, to argue a phosphate case.

Postmaster Cron is having the audience room of the postoffice kalsomined. The body of the walls will be cream with a big border of green over the wainscoting. Artist Dosh and his retainers of the brush are doing the work.

The Star regrets to hear of the continued illness of Miss Ida Gates. She was taken sick the opening day of school and has been sick ever since.

A TERRIBLE ACCIDENT AT CLEARWATER

Joseph Coachman Terribly Mangled and Killed by the Explosion of an Acetylene Gas Plant

Clearwater, Oct. 31.—Yesterday afternoon at 5 o'clock, Joseph Coachman, aged 16, son of S. S. Coachman, the leading merchant of this place, met a sudden and horrible death from the explosion of a small acetylene gas plant used for lighting his father's store.

The explosion tore young Coachman's head entirely from his body and death must have resulted immediately.

No one saw the accident, as the gas plant is located in a small structure a few feet in the rear of the store. It is known that the young man went into the building to recharge the plant, in time to turn on the lights for the night, and it was while he was thus engaged that the explosion occurred.

Whether the gas was ignited by the lighting of a match by young Coachman or whether he was smoking and thus communicated flame to the gas is not known.

The building in which the plant was located was demolished. Coachman was evidently close to the machine when it blew up and he doubtless did not realize just what had happened.

A crowd of people, from the store, the street and the nearby houses, rushed to the scene, hearing the noise of the explosion. A sickening sight met their gaze. Among the ruins of the building and the machine were found the mangled and headless remains of the young man. His family were prostrated with grief by the tragic occurrence and much regret is expressed over his sudden death.

DEAFNESS CANNOT BE CURED

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

PRESIDENTIAL ELECTION WILL MAKE NO CHANGE

No matter which candidate is elected, Foley's Honey and Tar will remain the people's favorite remedy for coughs, colds and incipient consumption. It cures quickly and prevents pneumonia. A. J. Nusbaum, Batesville, Ind., writes: "I suffered for three months with a severe cold. A druggist prepared me some medicine and a physician prescribed for me, yet I did not improve. I then tried Foley's Honey and Tar, and eight doses cured me." Sold by the Postoffice Drugstore.

There may be trouble between the United States and China. While Admiral Train, in command of the American Arctic squadron, and his son, Lieutenant Train, were bird shooting near Nankin, a charge of shot from the admiral's gun slightly wounded an old woman. An attack was made on the two officers. They were knocked down and tramped on, and though the admiral was allowed to go the lieutenant was held as a hostage. A body of marines was landed to rescue him, but did not succeed, though they had to fire twice on the natives, who tried to mob them. The Chinese officials are reported to be in sympathy with the rioters.

Six minor officials of the Pittsburg and Westmore Land Company entered the Hazlet mine, 18 miles west of Pittsburg, Pa., to ascertain if a portion of the mine was still burning as a result of an explosion of several weeks ago. OLD AGE

Comes to Everyone. But Its Visits May Be Postponed

Old age is not a question of years. Some men are old at forty, others are young at sixty.

It's a mighty hard proposition to look young, no matter how young you feel, if your hair is falling out and your head becoming bald.

Perhaps you are tired trying ineffectual remedies for this evil.

We don't blame you if you are.

Why not try an effective one for a change?
